FUTURE [OF] INDUSTRIES INDUSTRIES [OF] FUTURE

MIT AI 2018

April 20-22, 2018

Intercontinental San Francisco

Get ready for more.

We're taking it to the next level.

We are at unique crossroads where multiple technological shifts are not only disrupting companies within a sector but changing entire industries in fundamental ways. These same shifts also present innovators with the opportunity to create extraordinary value by inventing what the future looks like starting from first principles. The 2018 MIT AI Conference takes a deep dive into how machine learning is shaping the future of industries and creating industries of the future.

Over the course of 2 days, forward thinking executives, leading technologists, respected academics, and active investors will share insights on the state of industry and the state of AI, on gaps between business needs and technical capability, on opportunities for applying new advances, and on the longer term societal impacts of decisions made today.

The MITCNC The Future of AI Conference is where cutting-edge science meets new business implementation. It's a deep dive into emerging AI techniques and technologies with a focus on how to use it in real-world implementations. You'll dissect case studies, delve into the latest research, learn how to implement AI in your projects, share emerging best practices in intelligence engineering and applications, uncover AI's limitations and

Segment

Experience MIT AI Conference

You'll find:

- Inspiring keynotes and practical, information-rich sessions that explore the latest advances and best practices in AI
- Case studies designed to investigate tools, algorithms, and applications more deeply
- Networking opportunities with hundreds of other engineers, researchers, developers, program and product managers, innovation officers, and other deep learning professionals in the burgeoning AI field
- A vibrant networking opportunity / "hallway track" for attendees, speakers, and journalists to debate and discuss important issues

The MIT AI Conference is a unique opportunity for the brightest minds in applied AI to gather for an intense and invigorating few days of collaboration.

Winner of the MIT AI Idol

“I am impressed by the caliber of speakers, density of highly sophisticated audience members, and the depth of the conversation. The MIT intensity combined with the energy of the Silicon Valley create a perfect storm. The conference helped us close on many opportunities.”

John Whaley

Founder & CEO of Unify ID

Scholarship Recipients

A large portion of MITCNC's annual budget goes towards sponsoring needs-based students from the Bay Area to attend MIT. To date, the club has helped approximately 200 students with financial assistance through our scholarship fund. By participating in this event you will help make a difference in the club's ability to advance its mission.

Please make checks payable to "MIT Club of Northern California" and remit to:

**268 Bush Street
PMB 600
San Francisco, CA 94104-3503**

MIT Club of Northern California

MITCNC is the regional alumni club of Massachusetts Institute of Technology in Northern California.

The club is run entirely by volunteer MIT alumni. Along with its partners, the club organizes approximately 100 events every year, serving approximately 15,000 alumni in the Northern California area.

MITCNC is a 501(c)(3) non-profit with a mission to further the well-being of local MIT alumni by connecting them with each other and by fostering a continuing relationship with MIT.

We do this by:

- Being volunteer - led
- Organizing thought-provoking speaker events and tours
- Providing social and service events
- Supporting professional development & life-long learning

A large portion of MITCNC's annual budget goes towards sponsoring needs-based students from the Bay Area to attend MIT. To date, the club has helped over 175 students with financial assistance through our scholarship fund. By participating in this event you will help make a difference in the club's ability to advance its mission.

Thank you
